

## **Holmen Paper selected Satron Instruments P&P AB as instrument supplier for the new PM at Papelera Peninsular in Spain !**

Holmen Paper invest in a new recycled fibre-based newsprint machine incl. deinking plant at Papelera Peninsular in Spain. The annual capacity will be 300 000 tonnes.

Satron Instruments P&P was awarded with the order for field instruments and valves !

Satron commitment includes delivery of measuring equipment for pulp consistency, pressure, level, flow, temperature and all control- and on/off-valves. Manual valves are included as an option. Apart from the instrument delivery, erection supervision, commissioning and staff training is in also included.

Satron Instruments P&P concept to deliver complete equipment for field instruments for the paper industry, again appeared as successful.
